30-31 OCTOBER  
2014

## Conference programme

The conference will bring you up-to-date on the latest developments in the interface between science and policy in European healthcare. A year on from the establishment of the HTA Network under Article 15 of the EU Directive on patients' rights in cross-border healthcare, HTA 2.0 Europe will address questions such as

- What are the key achievements in the European cooperation in HTA that may impact national/regional healthcare systems and meet their needs?
- What is the present-day state of the interface between HTA, research, regulation and health policy making?
- What are the current challenges and opportunities in getting effective technologies to the patients in Europe?

## Conference target groups:

- Policymakers
- Technology assessors and developers
- Researchers (HTA-contributing fields of research)
- Payers
- Providers
- Patients

## Conference venue

## Facts about EUnetHTA

EUnetHTA was established to create an effective and sustainable network for HTA across Europe – we work together to help developing reliable, timely, transparent and transferable information to contribute to HTAs in European countries.

“HTA 2.0 Europe – Teaming Up for Value” is organised within EUnetHTA Joint Action 2 (2012-2015).

## Conference networking opportunities

During the 2-day conference, you can attend plenaries, panels and round table discussions and ask questions to the EUnetHTA tools and methodologies development teams. You will have many opportunities to learn how collaboration, defragmentation and integrative approaches can lead to improvements in healthcare systems across Europe.

During the reception at the end of the first conference day, you can further expand your networks in an informal atmosphere.

## Registration fees (excluding 22% VAT)

	Early (before August 31)	Regular (after August 31)	Onsite
